

## **TECHNICAL DATA SHEET**

**Product:** Performance Gaffer Matt tape

**Our Reference:** M57

**Description:** Performance Gaffer Matt Tape is perfect for the serious professional user who needs a matt, non reflective surface and strength.

### **PREPARATION**

Ensure surfaces to be treated are free from grease, dust and loose material

<b>TECHNICAL PROPERTIES</b>	Carrier	LDPE/Cloth
Adhesive		Natural rubber with synthetic resin
Thickness		310 Micron $\pm$ 10 Micron
Peel Adhesion to steel (180°)		12.7N/25mm
Tensile Strength		162N/25mm
Elongation @ break		13%
Ball tack no.		23
Shelf Life		1 year in original packaging stored in cool dry conditions

### **Composition**

Description: Woven cloth, coated on one side with a pressure sensitive adhesive.

Substrate: Cotton or Polyester cloth.

Adhesive: A pressure sensitive adhesive consisting of resins and natural rubber.

### **Hazard Identification**

Skin contact: Normally no effect. Ensure normal industrial hygiene. Wash hands with soap and water before taking food at the end of shifts. The tapes have not been formulated and tested for medical purposes and should not be used as medical plasters, bandages or hand protection tapes.

Eye Contact: No health effects are expected.

Inhalation: No health effects are expected.

**First Aid Measures**

Skin contact: Wash hands thoroughly with soap and water. If irritation persists, seek medical advice.

Eye contact: Not normally applicable.

Inhalation: Not normally applicable.

**Fire Fighting Measure**

Extinguishing Media: Use any common method.

Fire hazards: These tapes will burn. Combustion products include dark irritating smoke and possibly carbon monoxide. Avoid inhalation. For serious fires wear breathing apparatus with an independent air supply. If large quantities are to be stored, it is recommended that advice on fire-fighting equipment and procedures should be sought from the local Fire Authority.

**Accidental Release Measure**

Sweep up material and place in suitable containers for disposal.

**Handling and Storage**

Handling: The tape has not been formulated and tested for medical, chiropody or similar purpose and should not be used as medical plasters, bandages or hand protection tapes.

Storage: Store in a dry atmosphere at the ambient temperature.

**Exposure and Personal Protection**

Hand protection: Wash hands with soap and water or medically approved hand cleaner before taking food or toilet visits and at the end of shifts.

Eye protection: Avoid eye contact.

Respiratory protection: Not normally required.

**Physical and Chemical Properties**

Appearance Form: Adhesive tape in rolls

Odour: None

**Reactivity and stability**

Stability: Stable

Hazardous polymerisation: Will not occur.

**Toxicological information**

Not classified as hazardous.

**Ecological Information**

None known

**Disposal considerations**

Dispose of as combustible, non-toxic landfill in accordance with local and national regulations in force

**Transportation information**

No legal requirements

**Regulatory information**

Not classified as hazardous
