PAPER
BASE

GLASS
FIBRE
REINFORCED

Date of Issue : 25.09.2019

Subject : 2 Way Glass Fibre Reinforced Self Adhesive Kraft Paper

CONSTRUCTION

Backing : 125 gsm Kraft paper with cross weave glass fibre reinforcement
Adhesive : Highly cohesive, aggressive hot melt of synthetic rubber and hydrocarbons

TECHNICAL DATA

Total thickness : 0.24mm (AFERA)
Peel adhesion to steel : > 15N/cm (AFERA)
Tensile Strength : 115N/cm (AFERA)
Elongation at break : 6%

Above data for reference only, all readings subject to +/-5% tolerance and are average values.

RSPA tape is designed for carton sealing and packaging applications. Users should satisfy themselves that the tape is suitable for intended requirements. No warranties, either expressed or implied, shall apply to all products sold by Windmill Tapes Ltd.
